LANGUAGES

- English: C1 (Advanced)
- Spanish: Native
- German: B1 (Ongoing)

TECHNICAL SKILLS

ENGINEERING & OT

MATLAB, Simulink, AutoCAD, PLC
Programming (Siemens S7), LabVIEW.

SOFTWARE

Python (Data Analysis), C++, SQL Basics,
Git.

SYSTEMS

Industrial Networks, SCADA, Quality
Control Protocols.

PROFESSIONAL OBJECTIVE

High-achieving Engineering student in the final year of study at UPM, seeking to join the Airbus #XPLOER 2027 program. Aiming to develop a Bachelor's Degree Final Project (TFG) focused on Production, Quality or Engineering Services within the aerospace sector. Eager to apply academic knowledge to real-world industrial challenges.

RELEVANT TRAINING & EXPERIENCE

Industrial Systems Intern (Practicum)

2023

Indra (Defence & Security)

- Assisted in the validation of hardware-software communication protocols for defence systems.
- Collaborated with the engineering team in updating technical CAD drawings and system documentation.
- Gained hands-on experience in quality control procedures for critical aeronautical components.
- Supported the integration of sensor data for real-time monitoring tools.

ACADEMIC BACKGROUND

B.Eng. in Industrial Electronics & Automation (Final Year)

Universidad Politécnica de Madrid (UPM) - Getafe Campus.

- Current GPA: 8.5/10. Expected Graduation: July 2027.
- Relevant Coursework: Robotics, Automatic Control, Power Electronics, and Industrial Informatics.

CORE COMPETENCIES

- Proactive mindset with excellent communication skills in multicultural environments.
- Strong analytical and problem-solving abilities applied to complex engineering tasks.
- Committed to Airbus core values: Integrity, Diversity, and Innovation.
- Available for 25 hours per week (Feb-July 2027) with full flexibility for hybrid work at Getafe facilities.
