

EPAM Systems

Databricks Practice Lead - North America

North America (Remote) • Req.#1000562412

Base Salary Range: \$200,000 - \$250,000 / year

ROLE OVERVIEW

Lead the Databricks business group for a global technology consultancy. You will own the P&L, shape North American strategy, and strengthen the strategic partnership with Databricks. EPAM is looking for a leader to drive transformation and build high-impact co-sell programs across global industries.

KEY RESPONSIBILITIES

- **Strategy & Growth:** Define service portfolios, target verticals, and competitive positioning. Own P&L, driving revenue and profitability.
- **Partnership Leadership:** Align joint business plans with Databricks leadership, maximizing incentives and co-sell initiatives.
- **GTM Execution:** Orchestrate pursuit strategies for major opportunities and represent EPAM at the Databricks Data + AI Summit.
- **Team Leadership:** Build and lead focused teams across direct and matrixed reports.

REQUIREMENTS

- **Experience:** 15+ years in Data & AI consulting or enterprise software.
- **Track Record:** Proven success scaling a data platform business with full P&L responsibility.
- **Ecosystem Knowledge:** Deep command of Databricks products, partner mechanics, and co-sell motions.
- **Presence:** Executive credibility at the C-suite level; execution-oriented mindset.

BENEFITS

- Medical, Dental, Vision
- Matched 401(k)
- Matched Stock Purchase
- Unlimited LinkedIn Learning
- Unlimited PTO (15-25 days)
- LTI Program (for qualifying levels)
