

# Junior Paid Ads Acquisition Manager & Data Engineer

Status: Full-time / Independent Contractor  
Location: Madrid (Remote / Hybrid Options)

## THE ROLE & PURPOSE

Are you a data-driven marketer or a technical architect in the making? At Tameson, we are simplifying industrial supply for SMEs globally. As a **Junior Acquisition & Data Engineer**, you will help build the engine that powers our growth. You will turn complex data pipelines into scalable, profitable multi-channel results.

## KEY RESPONSIBILITIES

- **Data Pipeline Support:** Assist in building and maintaining tracking infrastructure (server-side GTM, SQL transformations).
- **Search & Marketplace Ops:** Execute and optimize granular campaigns for B2B buyers across Google, Bing, and Marketplaces.
- **Reporting & Analytics:** Help own the reporting layer in **BigQuery and Looker Studio** to provide transparency into CAC and LTV.
- **Scientific Testing:** Design A/B tests to validate new channels and CRO strategies.

## WHAT WE ARE LOOKING FOR

- **Entry-level / Junior Experience:** 0-2 years in digital marketing or data engineering. Strong academic background in STEM or Marketing.
- **Technical Base:** Foundational skills in **SQL and Python**.
- **Eager Learner:** High enthusiasm for using AI/LLMs to automate workflows.
- **Growth Mindset:** You care about revenue and profit, not just "vanity metrics".

## UNBEATABLE PERKS

- **Choose your Gear:** Pick your preferred PC/Laptop + peripherals (up to €2,500).
- **Team Globetrotting:** Two weeks per year of team offsites in locations **voted by the team**.
- **100% Remote:** Total flexibility to work from wherever suits you best.
- **Educational Budget:** €1k/year for your professional growth.

## TECH STACK FOCUS

SQL Python BigQuery Looker Studio  
Google Ads Server-side Tracking AI / LLMs

## WORK CONDITIONS

Flexible hours with a minimum overlap of **12:00–17:00 GMT+1**. Independent contractor agreement to facilitate global talent hiring.
